Qualification Code NQF	Qualification title (Назив на квалификацијата)	Type of qualification document (diploma, certificate). (Тип на документ за квалификацијата (диплома, уверение))	Sector of qualification (Сектор на квалификацијата)	Name of the body awarding the certificate (Име на институцијата која доделува документот)	Learners are assessed against (Оценување на оние што учат)	Legal basis of the certificate (Број на Решение)	Year of first issue of qualification. Year of revision (if any) (Година на издавање на квалификацијата и година на ревизија (ако има))	NQF Level of qualification (in principle) (Ниво на квалификација во НРК)	Level of qualification other (Вид на квалификација (дали е образование на возрастни или од стручно образование))	Entry requirements and pathways (formal, non-formal) (Барање за влез и начин на стекнување на квалификацијата)	Access to the next qualification level (Проодност на следно ниво)	Official recognised way of acquiring the certificate (Наставен план за стекнување на документот)	Statistical data (Статистички податоци)	Status
	Основно образование-осумгодишно	Certificate	Primary Education (Not listed in the sector on the Law)	All primary schools in the Republic of Maedonia - 358 in total (including music schools and schools for learners with special needs)	Subject	Revision decision number 07-440/2, 20.5.2010	Revised in 2010	I	Primary-inactive	Compulsory - no entry requirements set	Possibility to continue to all types of secondary education	School based		Discontinued
	Основно образование-деветгодишно	Certificate	Primary Education (Not listed in the sector on the Law)	All primary schools in the Republic of Maedonia - 358 in total (including music schools and schools for learners with special needs)	Subject	Decision for endorsement of the Curriculum for 9-years primary education number 11-854/3 dated 11.2.2014 (revision)	Revised in 2014	I	Primary-new	Compulsory - no entry requirements set	Possibility to continue to all types of secondary education	School based		
	Електронсталер и монтер	Diploma	Electrical Engineering	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	To be acquired		III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: Electromechanics, or Electromechanics GTZ reform, or other programmes after passing additional exams determined by the provider of formal VET. Vertical permeability: Technician for Electrical Power or other programme after passing differential exams	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
	Продавач	Diploma	Economics, Law and Trade	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	Decision number 11-2125/1, 26.04.2014	2014	III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: To other programmes after passing additional exams determined by the provider of formal VET. Vertical permeability: After passing differential exams can progress to Technician for trade and marketing and Economics Technician.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
	Гипсер-монтер	VET Credentials / Certificate	Civil Engineering and Geodesy	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	Decision number 11-5298/1, 25.09.2013	2013	III	VET2-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school. Candidates that have not completed primary education (completed at least sixth grade primary from 8-years primary education, or completed at least seventh grade primary from 9-years primary education), with an obligation to complete their primary education in parallel to completion of vocational education.	Horizontal permeability: to other programmes after passing additional exams determined by the provider of formal VET. Vertical permeability: After passing differential exams	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		

	Печатар	Diploma	Graphic Industry	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	To be acquired		III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: To Graphical Imaging after passing additional exams determined by the provider of formal VET. Vertical permeability: After passing differential exams can progress to Graphical Technician	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
	Месар	Diploma	Chemistry and Technology	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	To be acquired		III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: Dairy Worker, or Baker, or to other programmes after passing additional exams determined by the provider of formal VET. Vertical permeability: Food Technician or other programme after passing differential exams.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
	Фризер	Diploma	Personal Services	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	To be acquired		III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: Cosmetician Maniurist-Pedicurist, or to other programmes after passing additional exams determined by the provider of formal VET. Vertical permeability: Cosmetics Technician or other programme after passing differential exams.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
	Автомеханичар	Diploma	Mechanical Engineering	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	To be acquired			VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: To Metal Processor, Mechanical Mechanics, Construction Mechanics, Welder, Pipelines Installer, or to other programmes after passing additional exams determined by the provider of formal VET. Vertical permeability: To AutoTechnician for Mechatronics, Mechanical Engineering Technician, Mechanical Aviation Technician, Mechanical Engineering Technician for Power, Technician for Computer Guidance, or other programme after passing differential exams.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
	Ракувач со рударски машини	Diploma	Geology, Mining and Metallurgy	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	Decision number 11-2127/1, 26.04.2013	2013	III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: To Building/Consturction Machines Operator, or to other programmes after passing additional exams determined by the provider of formal VET. Vertical permeability: To Geology-Mining Technician or other programme after passing differential exams.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
	Оператор со машини за пренос на материјали	Diploma	Traffic, Transportation and Storage	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	Decision number 11-2121/1, 26.04.2013	2013	III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: To any other programmes after passing additional exams determined by the provider of formal VET. Vertical permeability: To Technician for Passenger Traffic, Technician for Transport and Fright Forwarding, Technician for Railway Traffic, Diesel and Electrical Trains Driver or other programme after passing differential exams.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		

Столар	Diploma	Forestry and Wood Processing	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	Decision number 11-2116/1, 26.04.2013	2013	III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: To Wallpaper Worker - Decorator, Wood Carver, or other programmes after passing additional exams determined by the provider of formal VET. Vertical permeability: To Technician for Furniture and Interior, Technician for Wood Processing, or other programme after passing differential exams.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
Конфекционер	Diploma	Textile, Leather and Similar Products	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	To be acquired		III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: Other programmes on the same level after passing additional exams determined by the provider of formal VET. Vertical permeability: To Garment Technician, Garment Computer Operator, or other programme after passing differential exams.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
Келнер	Diploma	Catering (Food Service Industry) and Tourism	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	Decision number 11-4749/1, 10.09.2013	2013	III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: To Cook and Confectionist, or other programmes on the same level after passing additional exams determined by the provider of formal VET. Vertical permeability: To Hotel - Tourism Technician or Catering Technician for Rural Tourism, or other programme after passing differential exams.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
Градинар - Цветкар	Diploma	Agriculture, Fishing and Veterinary	Vocational Schools that offer training in this sector	Subject LOs internally + Final Exam + arbitrary subjects externally as a part of National External Examination	Decision number 11-2123/1, 26.04.2013	2013	III	VET3-new	For enrolment in first year as full time student, candidate should have completed primary education and to be younger than 17 years. As part time student can be enrolled a candidate that meets one of the following criteria: older than 17 years, was on sick leave for a longer period, to be employed, or other cases regulated with the Statutes of the secondary school.	Horizontal permeability: To other programmes on the same level that are covering plants growing after passing additional exams determined by the provider of formal VET. Vertical permeability: To Horticulture Technician, Farming Production Technician, Agromanagement Technician, Forsetry and Landscape Architecture Technician, or other programme after passing differential exams.	School based (classroom, labs, workshops). At least 1/3 of the hours for practical training in companies - workplace based.		
Геолошко-рударски техничар	Diploma	Geology, Mining and Metallurgy	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 07-6403/1, 22.08.2007	2007	IV	VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 12% in the total volume of the training programme hours.		

	Металуршки техничар	Diploma	Geology, Mining and Metallurgy	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 07-6403/1, 22.08.2007	2007	IV	VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 14% in the total volume of the training programme hours.		
	Архитектонск и техничар	Diploma	Civil Engineering and Geodesy	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 07-6403/1, 22.08.2007	2007	IV	VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 9% in the total volume of the training programme hours.		
	Геодетски техничар	Diploma	Civil Engineering and Geodesy	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 07-6403/1, 22.08.2007	2007	IV	VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 9% in the total volume of the training programme hours.		

	Градежен техничар	Diploma	Civil Engineering and Geodesy	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 07-6403/1, 22.08.2007	2007	IV	VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 10% in the total volume of the training programme hours.		
	Техничар дизајнер за внатрешна архитектура	Diploma	Civil Engineering and Geodesy	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 11-839/1, 10.02.2012	2012	IV	VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 12% in the total volume of the training programme hours.		
	Графички техничар	Diploma	Graphic Industry	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 07-6403/1, 22.08.2007	2007	IV	VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 22% in the total volume of the training programme hours.		

	Деловен секретар	Diploma	Economics, Law and Trade	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 07-6403/1, 22.08.2007	2007		VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 10% in the total volume of the training programme hours.		
	Економски техничар	Diploma	Economics, Law and Trade	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 07-6403/1, 22.08.2007	2007	IV	VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 10% in the total volume of the training programme hours.		
	Правен техничар	Diploma	Economics, Law and Trade	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.	Decision number 07-6403/1, 22.08.2007	2007	IV	VET4	Information not presented in the available documentation.	Information not presented in the available documentation.	School based (classroom, labs, workshops). Practical training is participating with 9% in the total volume of the training programme hours.		

	Техничар за трговија и маркетинг	Diploma	Economics, Law and Trade	Vocational Schools that offer training in this sector	Subject internally + State Matura or Final Exam + arbitrary subjects externally as a part of National External Examination. In a case of State Matura there are selected subjects assessed internally against externally determined examination programmes.
